Source: DOCR Fact Sheets

NOTE: The average sentence is that sentence imposed by the court. It does not take into account such things as good time, credit for time served, parole relief or any other method of shortening the sentence except Pardon Advisory Board recommendations adopted by the Governor (which can actually change the sentence). The average sentence is reported in months to two decimal points.

Data is based on the "controlling sentence" for offenders who are admitted for multiple crimes. Controlling sentence is the longest sentence ordered by the court that has not expired.
