AUDIT FINDINGS

Narrative:

The auditor's description of the audit methodology should include a detailed description of the following processes during the pre-audit, on-site audit, and post-audit phases: documents and files reviewed, discussions and types of interviews conducted, number of days spent on-site, observations made during the site-review, and a detailed description of any follow-up work conducted during the post-audit phase. The narrative should describe the techniques the auditor used to sample documentation and select interviewees, and the auditor's process for the site review.

The Site visit of the Audit of the North Dakota Youth Correctional Center was conducted on September 21-24, 2016. The entire facility was toured following a brief introductory meeting with facility and agency staff. During this time, I asked questions about operations and other processes to help me understand some of the policies and procedures that had been submitted. After the tour, interviews were started. For staff interviews, I randomly picked staff from every shift and also from every dorm. Residents were chosen by picking roughly every fourth person on the resident roster. Personnel were interviewed on all shifts and from all cottages. Likewise, residents were representative from all cottages. No residents refused to answer questions, and all were very polite and cordial.

Facility Characteristics:

The auditor's description of the audited facility should include details about the type of the facility, demographics and size of the inmate or resident population, numbers and type of staff positions, configuration and layout of the facility, numbers of housing units, description of housing units including any special housing units, a description of programs and services, including food service and recreation.

The North Dakota Youth Corrections Center is located in Mandan, ND, and has a rich history. The original plan was to convert Fort Lincoln into a reform school, but the Legislature passed an act in 1901 to erect a building on a 40-acre parcel of farm land west of Mandan. The main building was completed the following year, and on May 13, 1903, the new institution was opened. Since 1903 the facility has served as the state's center of juvenile justice administration and operation under such names as: State Reform School from 1903-1919; State Training School from 1920-1960; State Industrial School from 1961-1994 and the North Dakota Youth Correctional Center from 1995 to present.

The NDYCC includes four cottages, administration and education facilities, a gymnasium with an indoor swimming pool, a chapel and a cafeteria. The institution was able to avoid encompassing its campus with a wall or a fence by remodeling Pine Cottage into a security facility for high-risk juvenile offenders.

The Division of Juvenile Services (DJS), in an effort to enhance services to the delinquent juveniles in our care has developed and implemented a Juvenile Assessment Center on the campus. The Assessment Center provides a central point of entry for all delinquent juveniles placed within the custody of the DJS as authorized by the North Dakota Century Code for centralized processing, assessment and referral. The Assessment Center utilizes a variety of assessment tools designed to provide a framework for making informed decisions by developing a more comprehensive treatment plan that best links the juvenile to the services and interventions that will provide them the treatment, skills and competencies to live a crime-free life. Additionally, the Assessment Center increases coordination of information and services and enhances sharing of information across agency lines.

The NDYCC has a State and AdvancED accredited junior high and high school. It is our hope that each student will grow both educationally and personally during his/her stay.

The objective of each of the NDYCC's treatment programs is to provide a safe and secure environment to include the opportunity for incarcerated individuals to engage in treatment which intervenes in the thinking behavior and lifestyle associated with criminality. The NDYCC Treatment Services programs focus on criminal attitudes and behaviors with an additional emphasis on recovery and transitions issues. The approach is holistic and includes a variety of disciplines to assist youth with issues of substance abuse, criminal thoughts and behavior, stress and violence, lifestyle (work, leisure, and health), and spirituality.

The treatment environment includes areas of group counseling, individual counseling, substance abuse education, cognitive-behavioral classes, recovery and relapse prevention counseling, grief/loss counseling, victim impact programming, security intervention (gang) classes, physical fitness, spirituality, health and work. The composition of these programs allow for integration of learned concepts into applied behavior. Staff works together to assess progress, address behaviors, and solicit change. Significant focus is maintained on how behavior impacts others. The diversity and reality of the therapeutic approach of new information and skills will enable each youth to think constructively, act responsibly and limit negative consequences for self and others.

The Detention Program is designed to provide a short placement for those juveniles who have committed a crime in the community and need to be held in a secure facility pending a court hearing and disposition of their case. North Dakota Century Code: Chapter 27-20-14 — Detention of child — Juvenile Drug Court Exception "If a child is participating in a juvenile drug court program, the drug court may order the child detained. The child may be detained twice during the child's participation in the program but the total period of detention under this subsection may not exceed four days in a one-year period."

Recreational activities for juveniles housed at the North Dakota Youth Correctional Center are detailed in a weekly schedule prepared by the Director of Recreation. All activities are aligned to the Physical Education and Health standards that all students will experience. At least 90 minutes of "major muscle group" activities are scheduled for each week day and two hours on weekends and holidays.

In addition, students who are in need of physical education credit towards their high school diploma will gain the hours and instruction needed for this credit during the physical education time scheduled within the students' day. Students are given a monthly fitness test to ensure they are maintaining or improving their general physical fitness. All activities are closely supervised, instructions of the rules are provided, and all participate in a supervised stretching and a warm-up prior to daily activity.

I found the environment at the NDYCC to be very friendly, with a good atmosphere. Staff were supportive of youth, and genuinely concerned about any problems that they may have.

Summary of Audit Findings:

The summary should include the number of standards exceeded, number of standards met, and number of standards not met, along with a list of each of the standards in each category. If relevant, provide a summarized description of the corrective action plan, including deficiencies observed, recommendations made, actions taken by the agency, relevant timelines, and methods used by the auditor to reassess compliance.

Number of standards exceeded:	2
Number of standards met:	41
Number of standards not met:	0

For the Interim Report, the facility had very few items, (only seven subsection of the standards), that were found to be non-compliant. Several of the standards, including 115.364a, 115.352b, 115.363c, 115.373d, 115.373e were addressed quickly by staff through policy changes, and staff were subsequently trained on the policy changes with 6 weeks of the audit visit, which also satisfied standard 115.331a. Standard 115.333b has been addressed as well through enhanced 10-day resident education material. Prior to the Final Report, the facility submitted documentation that they have implemented an effective method of delivering the 10-day resident education sessions. They also test each student, and if there are any mistakes in the answers, the staff go over the information with the resident to make sure they understand. This is very effective and shows a great commitment to the goal of keeping youth safe in the facility.

Standards	
Auditor Overall Determination Definitions	
<ul style="list-style-type: none"> • Exceeds Standard (Substantially exceeds requirement of standard) • Meets Standard (substantial compliance; complies in all material ways with the stand for the relevant review period) • Does Not Meet Standard (requires corrective actions) 	
Auditor Discussion Instructions	
<p>Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.</p>	

115.311	Zero tolerance of sexual abuse and sexual harassment; PREA coordinator
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	PREA Coordinator is QA manager. Facility does have a PREA Compliance Manager. PREA has been established well throughout the facility and staff are very well trained. The staff members' care and concern for all residents' safety and welfare was evident in interviews and observed throughout the facility during the tour.

115.312	Contracting with other entities for the confinement of residents
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	No contracts.

115.313	Supervision and monitoring
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>At this time, the facility is in compliance with their staffing plan, which is allowed by PREA until October 1, 2017.</p> <p>In preparation for the PREA staff ratio, the facility calculated the number of times that they were out of compliance with the PREA ratio over the past 12 months. This would give them a very accurate estimate of the number of times that they will be out of compliance with the PREA ratio when it is imposed, given the assumptions that population and staffing levels will remain approximately the same as they are now. It was found that the facility was out of compliance 225 times during waking hours, and 184 times during sleeping hours. Roughly the same number of violations would be expected after October 1, 2017.</p> <p>In addition, as all information received from the DOJ and the PREA Resource Center informs us that the PREA ratio that will be imposed will be based on staff immediate proximity to residents, additional violations of the standard will possibly occur when residents are being escorted from building to building. An example of this would be if two staff are supervising 14 residents in a dorm. When it is time to take the residents to the school building, one of those staff members must remain with two residents who are sick. The remaining staff must then escort 12 others to class by him/herself, putting the facility out of compliance.</p>

115.315	Limits to cross-gender viewing and searches
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>Case by case basis for all situations involving T/I. I personally observed the X-G announcement several times while doing the tour and when going into cottages for interviews. Resident interviews confirmed that the X-G announcement is being done regularly.</p>

115.316	Residents with disabilities and residents who are limited English proficient
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>Interpretive services available. Resident interpreters are not allowed except for incidents where a delay would cause harm. Predominant language is English.</p>

115.317	Hiring and promotion decisions
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	Ongoing evaluations and applications for employment contain the questions listed in 115.317A1, 2, 3. Files checked showed that background and child abuse registry checks are being conducted of applicants and contractors.

115.318	Upgrades to facilities and technologies
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	New cameras were added last year and recording capabilities were added to enhance the facility's ability to safeguard youth.

115.331	Employee training
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>Random employee training records and evaluations were checked. Training was also deemed to be very effective through interviews with staff, with the only exception being the first responder duties. In interviews, all employees interviewed were able to articulate most of the first responder duties with the exception of those listed in 115.364a3, 4.</p> <p>REQUIRED ACTION: Conduct training for staff on the edited policy for standard 115.364a (see below) and furnish copies of of training records showing that staff understand the training that they received to the auditor. Skype or phone interviews will be conducted with several random staff prior to the end of the Corrective Action Period.</p> <p>Administrative and training staff were very responsive to this issue and should be commended. Prior to the issuance of the Interim Report, the facility had conducted the required training for 90% (approximately 100) of the staff, with the remainder scheduled. Prior to the issuance of the Final Report, staff will be interviewed by phone to confirm understanding.</p> <p>Prior to the end of the Corrective Action Period, I conducted 4 phone interviews with staff and I am satisfied that the training has been updated, staff have been trained and understand the first responder duties.</p> <p>(115.364a required action--Policy YCC3C-4, section 5, H 3 a 1-9 should be rearranged and edited to represent a better chronological order for outlining duties of those staff members who receive a report. Included in this edit must be those items listed in 115.364a 1-4.)</p> <p>****Auditor Note-115.364a required action completed on Sep 29 and cleared by Auditor on Oct 2.)</p>

	Auditor Discussion
	Nice, simple but very satisfactory training procedure for contractors and volunteers.

115.333	Resident education
	Auditor Overall Determination: Exceeds Standard
	Auditor Discussion
	<p>10-day resident education sessions need to be conducted for all residents.</p> <p>REQUIRED ACTION: Conduct 10-day resident education sessions for all residents of the facility for period of time to be determined by the facility and the auditor. Furnish documentation of the sessions to the auditor prior to the end of the Corrective Action Period.</p> <p>AUDITOR'S NOTE: Even prior to the issuance of the Interim Report, the facility had incorporated some ideas into the 10-day resident education sessions and sent documentation of the sessions to me. The facility will continue to document the 10-day resident education sessions and forward to me after approximately 2 months.</p> <p>Prior to the end of the Corrective Action Period, the facility forwarded to me the required documentation showing that they have implemented an effective system of delivering 10-day resident education sessions to residents, and conducting testing of each juvenile to determine comprehension. In fact, staff go over any wrong answers with the youth to make sure they understand better.</p>

115.341	Obtaining information from residents
	Auditor Overall Determination: Exceeds Standard
	Auditor Discussion
	Frequent reassessments of all youth stay on top of any issues that might influence decisions and assignments.

115.342	Placement of residents
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	Placement decisions and assignments are handled well. Very good process of re-evaluating youth on a frequent basis.
	Residents are not isolated, but may be separated into Pine cottage for serious incidents, where they are evaluated for special management housing. However, this is a very short term process that would probably not last more than a few hours. In the very unlikely situation where a juvenile may be confined for even a day, medical or mental health would visit daily. On weekends, those staff who have been through training and certified as medical first responders can fulfill this responsibility.

115.351	Resident reporting
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	Many avenues available, staff must document immediately. Interviews with staff confirmed that immediate documentation would be done.

115.352	Exhaustion of administrative remedies
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>REQUIRED ACTION: Grievance policy at this time requires an informal resolution process. Separate sexual abuse/harassment grievances from other grievances to differentiate between regular grievances and sexual abuse/harassment grievances.</p> <p>Well before the Corrective Action Period even started, the facility furnished edited policy that does not require a juvenile to go through any informal resolution process at all when dealing with sexual abuse grievances.</p>

	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	All staff interviewed confirmed that they could take immediate action without delay. All interviewees also stated that they would then immediately call their supervisor to get an investigation underway as well.

115.363	Reporting to other confinement facilities
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	Since the facility accepts residents from another state, the other state's investigative agency needs to be contacted. REQUIRED ACTION: Policy YCC 3C-4 H 1 B should have a statement added to the end of the paragraph which states that all notifications are to be documented. Well before the Corrective Action Period, the facility furnished edited policy that requires documentation of all such notices.

115.364	Staff first responder duties
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	REQUIRED ACTION: Policy YCC3C-4, section 5, H 3 a 1-9 should be rearranged and edited to represent a better chronological order for outlining duties of those staff members who receive a report. 	Auditor Discussion
	Well monitored. Weekly Case Manager meetings would also discuss any problems.

115.368	Post-allegation protective custody
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	Residents are not isolated, but may be separated into Pine cottage for serious incident,, where they are evaluated for special management housing. However, this is a very short term process that would probably not last more than a few hours. In the very unlikely situation where a juvenile may be confined for even a day, medical or mental health would visit daily. 	DOCR 3C-4 5 B 2 covers discipline and remedial actions for volunteers and contractors well.

115.378	Interventions and disciplinary sanctions for residents
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	Residents are not isolated, but may be separated into Pine cottage for serious incident, where they are evaluated for special management housing. However, this is a very short term process that would probably not last more than a few hours. In the very unlikely situation where a juvenile may be confined for even a day, medical or mental health would visit daily. On weekends, those staff who have been through training and certified as medical first responders can fulfill this responsibility. If residents are separated, edited policies require visits from M/MH.
