- Until public opinion shifts from equating incarceration with safety, any reduction in incarceration will be cited as the cause for crime. How much risk are we willing to take?

Healthy and Productive Neighbors, a Safe North Dakota

The vision is a correctional agency that is highly effective in transforming lives, influencing change, and strengthening community. A correctional agency that has less people under its care and supervision. A correctional agency that has successfully redirected resources “upstream” that prevent / divert people with substance abuse and mental health issues from the criminal / juvenile justice system. A correctional agency that is a key contributor to a safe North Dakota.

NECESSITIES

- Invest in workforce
- Strengthen and expand community involvement (jobs, housing, education, behavioral and mental health)
- Coordinated approach / improved collaboration with courts, law enforcement, human services
- Data supported / driven management (focus resources on what works)
